Introduction

Following are the impassioned words of a Christian Minister who was the guest speaker at a workshop on Satanism, held at a local Secondary School.

"Parents, don't be caught napping, Satan is alive, well, and active in the midst of our society. His hunger is unbounded! And he desires to satiate it with the souls of men. He particularly desires the souls of your children. Satan does not sleep, neither does he rest; with his followers, he continually walks the earth, corrupting, and adding disciples to his fold.

"Currently, one of Satan's most fertile fields for recruitment is the schools, colleges, and universities of our country. Here, he finds young people that fall easy prey to his glittering enticements.

"Parents, be warned, the flower of our country is being seduced by teachers, professors, adults, friends, and external organisations. These corrupters must be unmasked and eradicated from descent society. Those of our youth who have fallen beneath Satan's spell need to be understood, loved, and gently lifted back into the arms of their families. Those of our youth who have not been contaminated must be protected against Satan's onslaught.

"Father, as head of your household, it is your duty to God to protect, from the evil one, those souls that have been entrusted to you. Only you have the power and authority to do this. We plead with you. We appeal to you. We ask you to join us in a united campaign to eradicate Satanism from our schools, colleges, universities, and the lives of our young people."

Following the discovery of Satan worship among secondary school pupils, concerned teachers, parents, and other interested people decided to convene a satanic workshop. The mission of the workshop was to educate people to be able to recognise the signs of satanic involvement, particularly in young people.

The Christian Minister gave, to the assembled meeting, practical instruction in the recognition of Satan's signs and methods.

He said: 'In the fight with evil, prevention is better than cure. If we can pick up the tell-tale signs of fringe involvement, we can... with love and concern... gently bring our young people back onto a safe Christian path before any irreparable damage is done.'

The Signs of Involvement

The indicated signs of fringe involvement included:

- 1) The person may have a desire to paint his room black. There may also be a desire to place moon and star symbols on the ceiling.
- 2) The person may have an obsession with rock music, particularly heavy-metal rock music.
- 3) The person may have an interest in the occult, and occult practices such as: meditation, Ouija boards (Glassy-Glassy), tarot cards, astrology, palm-reading, telepathy, astral projection, I Ching, runes, dowsing, healing, herbs, oils, etc.
- 4) The person may have an interest in Occult, Witchcraft, and Satanic curios - skulls, goats heads, knives, chalices, robes, incense, candles, occult jewellery, ankhs, pentagrams, hexagrams, 666, crystals etc.
- 5) The person may have an interest in occult, witchcraft, or satanic literature. This would include occult magazines, and books on magic spells and rituals. There could also be an interest in occult, blood, and violent flavoured movies. An occult flavour is often present in modern cartoons and can be a primary training ground for unsuspecting children. There may also be an obsession with Fantasy role-playing games (dungeons and dragons etc).
- 6) The person may be involved with friends that dress in black, and greet each other with the Satanic salute (the index finger and the little finger extended upwards, with the palm facing outwards).
- 7) The person may have a fear of the dark, enclosed spaces, and may be prone to sleep-walking, night-mares, night-hallucination, and night-terrors.
- 8) The person will have strong negative feelings towards orthodox religions, churches, and Christianity. The person may display discomfort and distress when entering a Church, or consecrated graveyard.
- 9) The person may be involved in tobacco, alcohol, or drug abuse.
- 10) The person may use a Satanic 'New Name', which may have a strange, mystical, or old-fashioned sound.
- 11) The person may exhibit unusual body movements such as twitching, rocking, head banging (rapid movement of the head backwards and forwards), chanting, or emitting low frequency sounds (Aum). Also prolonged periods of stasis, where no bodily movements are present, may be observed.
- 12) The person may be involved with acts of cruelty, particularly towards animals, weaker peers, and younger siblings.
- 13) The person may have a morbid fascination with blood, violence, and death.
- 14) The person may use profane, violent, and sexually connoted language.
- 15) The young person may start exhibiting falling results at school.
- 16) The person may exhibit a low level of personal hygiene.
- 17) Secrecy is one of the base codes of witchcraft and satanism. A person involved in the occult will become evasive and secretive - often within a small group of friends.

The Minister commented further: 'Be aware, Satan is very clever, he is a master of deception. And sometimes we do not detect the early stages of Satanic involvement, and are then faced with a young person that is involved in ritual Satanism. This is serious, because the young person will be subjected to ritual abuse, with serious physical, psychological and spiritual damage often resulting.'

The Signs of Ritual Abuse

The indicated signs of ritual abuse included:

- 1) The person may be morose, aggressive, rebellious, mentally disturbed, and may be diagnosed as a paranoid-schizophrenic. There is always personality changes when Satan is involved with a person. Many of the personality changes will be as a result of the drug abuse that typically accompanies satanic activity.

- 2) The person may be plagued with nightmares and night-terrors.
- 3) The person may have an obsession with sex, sex related literature (pornography), sexy movies etc. Also excessive masturbation may develop.
- 4) The person may suffer from severe head pains, internal body pains, etc. Also, eating disorders (Anorexia, Gluttony, Sugar and Caffeine Craving, etc) may develop. A craving for very rare, or raw meat may also be noticed.
- 5) The person will have initiation scars. These may be present on any of the following areas of the person's body: hands, wrists, breasts, under the arms, genitals, inside the thighs. Often occult symbols are self inflicted by the person himself.
- 6) Satanic rituals need blood. Therefore, the person will have scars on the wrists and below the breast area. These are not initiation scars, but inflicted, often by the person himself, to donate blood for rituals.
- 7) The person may be morbid, fearful, depressed, angry, and filled with hate. Aggressive, violent, and suicidal thoughts may be also be present.
- 8) The person may exhibit an overpowering fear of God, and a total fixation with Satan, death, daemons, curses, and spirits.
- 9) Coven brands or tattoos may be present on the person's body. Typically these are found on any of the following areas of the person's body: inside the hairline, neck, hands, breasts, genitals, buttocks, inside the thighs, soles of the feet.
- 10) There may be rope burns on the person's neck, wrists, abdomen, or ankles. These burns will be present from the bondage rituals that the person was subjected to.
- 11) Bite marks may be present on the person's body. These may be found on any of the following parts of the person's body: neck, wrist, breasts, or abdomen, inside the thighs, genitals. These bite marks could indicate that elemental entities, as well as other coven members, are feeding upon the person.
- 12) Scourge marks may be present on the person's body. These marks are typically found on the back, breasts, thighs, and legs.
- 13) The person may have a manic fear of churches, members of the clergy, church-candles, grave-yards, hospitals, mortuaries, police-stations, etc.
- 14) The person will have Satanic books, jewellery, and implements. Often the literature includes occult writings by the person himself.

The books may include: A Satanic Bible, and a Book of Shadows.

The jewellery may include: Pentacles (Five Pointed Stars), Pentagrams (Pentacles surrounded by Circles), Inverted Pentacles and Pentagrams, Hexagrams (Six Pointed Star or Star of David), Swastikas, Crescent Moons and stars, Ankhs, Peace Symbols (Ban-the-Bomb symbols), Scarabs, and Eyes.

The implements may include Pentacles, Hexagrams, Chalices, Wands, Daggers, Incense Burners, Crystals, etc.

Also, there may be drugs, herbs, and oils in the possession of the person involved in Satanism.

- 15) Fear - At initiation the person will have signed a 'Vow of Allegiance' to Satan in his own blood. Often this signing takes place in a 'Book of Shadows'. Because of the blood used in the signing, the genetic imprint can be used by Priests to psychically attack a member who is not totally obedient. Thus great fear is exhibited by the person who is trying to extricate himself from Satanism etc.

Parents, if you detect that a young person has suffered ritual abuse, seek help. Don't go it alone. There are people within the school's organisation, within the Christian church, within the Police, and within the welfare services that are qualified to help you. These people will make themselves available

to you as you help your child rid himself of Satan. And, very important - remember to report all Satanic activity to the Police.

With Satan's onslaught, one principle becomes very clear in protecting one's family against contamination: 'prevention is better than cure'.

According to the Minister, the most important, enduring, powerful step that a parent can take in his life, is to ensure that his own spiritual life is in order. Keeping children from being lured into Satanism and drugs can be difficult if the parent is paying daily homage to the gods of this world (Power, Influence, Money, Sex, etc). Children follow by example, "Do what I do" works a whole lot better than "Do what I say".

Conclusion

In conclusion, the Christian Minister said:

'Trying to set a good example in your own strength can be difficult. However, with Jesus Christ as your Lord and Saviour, you can become a better person, and thereby a better parent. I'm not here to push Christ down your throat, but remember, he is there if you want him and his power. Remember, the battle with Satan is essentially a spiritual one, and the best weapon to use is prayer. So my final exhortation to you is: pray, pray, and pray to God. Then... pray some more.'

End
