Arthur C. Clarke speaks of man's potential when he describes the Star-Child in "2001 A Space Odyssey":

Then before him, a glittering toy no Star-Child could resist, floated the planet Earth with all its peoples...

Then he waited, marshalling his thoughts and brooding over his still untested powers. For though he was master of the world, he was not quite sure what to do next.

But he would think of something.

(2001 A Space Odyssey - Arthur C Clarke (1917–2008))

End
